ATTACH THE ELASTIC LOOP AT THE BACK END OF CUSHION COVER WITH AN "S" HOOK TO THE UNDERSIDE OF THE SEAT.

PULL THE STRAPS DOWNWARDS AND TIGHTEN.

INSERT STRAPS INTO THE OUTER BUCKLES. ATTACH THE ELASTIC LOOP AT THE BACK END OF CUSHION COVER WITH AN "S" HOOK TO THE UNDERSIDE OF THE SEAT.

PULL CHORD END CLOSEST TO THE DOOR THROUGH THE SPACE BETWEEN THE BACKREST AND SEAT CUSHION. PULL THE LOOP AT THE OPPOSING END AROUND THE SIDE TO THE BACK OF THE SEAT.

PLEASE USE EYE PROTECTION WHEN ATTACHING ELASTICS AND HOOKS.

DO NOT REMOVE ACTIVE HEADRESTS, USE THE VELCRO OPENING AT THE TOP OF BACKREST COVER FOR EASY INSTALL.

DO NOT REMOVE ACTIVE HEADRESTS, USE THE VELCRO OPENING AT THE TOP OF BACKREST COVER FOR EASY INSTALL.

IF BACKRESTS HAVE SIDE IMPACT AIRBAG TAGS, MAKE SURE TO INSTALL WITH THE SIDE AIRBAG TAGS OVER THE AIRBAGS.

IF YOUR HAND CAN PASS THROUGH TO THE BACK BETWEEN THE BACKREST AND CUSHION, YOUR SEAT HAS NO BIB. YOUR BACKREST COVER WILL HAVE A CARPETED TAB AND A VELCRO ON THE BACK. PUSH THE FRONT TAB BETWEEN THE BACKREST AND CUSHION TO THE BACK, AND ATTACH TO VELCRO.

TIP FOR BETTER FIT:

WHILE TIGHTENING STRAPS/VELCRO, PUSH DOWNWARD ON THE BACKREST FRONTSIDE TO SMOOTH WRINKLES.

PINCH MATERIAL, CUT ALONG THE "X" MARKINGS, AND TUCK THE MATERIAL UNDER THE BRACKETS.

ON THE TOP OF THE BACKREST COVER, MARK WITH A PEN AN "X" OVER EACH HEADREST POST.
SEAT COVER CARE

YOUR SEAT COVERS ARE MACHINE WASHABLE. WASH SEPARATELY IN COLD WATER WITH 1/4 OF NORMAL AMOUNT OF SOAP AND HANG DRY.

QUESTIONS OR CONCERNS?

1 - 604 - 216 - 1106
1 - 888 - 821 - 1066

FOR TRUCKS

1 HEADREST REMOVAL
Remove the headrest by repeating step one from front seat cover installation instructions.

2 BACKREST REMOVAL
If the backrest is attached to the vehicle frame, your covers should be open backed. To make room for the straps to drop between backrest and vehicle frame, pull the cushion up. Often, this will force the backrest to move forward from the frame.

3 STRAPS & BUCKLES
Next, insert the straps into their corresponding buckles as shown.

4 CUSHION COVER
During cushion cover installation, flip seat(s) up while tucking the velcro flap

FOR CARS

1 HEADREST REMOVAL
Remove the headrest by repeating step one from front seat cover installation instructions.

2 BACKREST REMOVAL
You may have to remove a bolt usually located at the back of the cushion. Look for any latches on the front edge of the seat. If there are none, your cushion will be held on by plugs (you will be able to feel where they are). Pull up gently until the plug pops out and seat is released. If you are unsure, call your dealers service department for guidance.

3 STRAPS & BUCKLES
Insert straps into their corresponding buckles. Pull the chord by their loops together, and connect with an “s” hook. Pull straps downwards to tighten.

4 BACKREST COVERS
Secure backrest covers via velcro tabs. The bolsters are usually held in place by bolts placed at the bottom. Remove these bolts in order to detach the bolsters before installing the bolster covers.
